

September 2012 Weather in Review

Summer like days over South Central Texas in early September 2012, with highs in the 90s to near 100, changed to more autumn like days by mid September. A cool front the night of Friday the 7th to the early morning of Saturday the 8th dropped highs to the mid 80s to mid 90s. A September 9th to 12th warming trend warmed afternoon highs to the 90s to near 100 the 12th. This was followed by cooler days the 13th, with scattered showers, and the 14th with more rain. Clouds and scattered rain kept highs on Friday, September 14th in the 70s in wake of another cold front. September 14th was the coolest day since May 15th at San Antonio, since May 10th at Del Rio, and since May 8th at Austin Mabry. After rains and more autumn like daytime highs the weekend of the 15th and 16th, warmer days followed September 17th to the 27th. A disturbance coming from the Southwest U.S. and Northern Mexico combined with gulf moisture and pacific moisture produced widespread rains across South Central Texas on Friday the 28th and Saturday the 29th. Breezy north winds ended the month on the 30th, with isolated light rain showers over the north to east part of South Central Texas.

September 2012 Summary					
Location	Average Temperature	Average High	Average Low	Warmest/Coolest	Rainfall
Austin Mabry	80.0 +/-0.0	91.1 +0.6	68.9 -0.5	103 on 4th, 5th, and 7th 61 on 10th and 19th	5.70 +2.71
